

DC WATER PUMP (BRUSHLESS MOTOR & MAGNETIC ROTER)

<< DC 701 >>

VOLTAGE : 12V
AMP : 0.15A
MAX. HEAD : 1.2M
Dimension : 94 X 70 X 70mm
Screw Type

<< DC 703 >>

VOLTAGE : 12V
AMP : 0.15A
MAX. HEAD : 1.2M
Dimension : 94 X 70 X 70mm
Screw Type

This is a 12V DC water pump with magnetic rotor and brushless motor design. The pump is suitable for 24 hours continuous operation and can be connected to any DC power supply or solar panel. The efficient and compact design is suitable for a broad range of processor and electronic cooling.
