

KAS9WA Specifications

1. Rated Voltage	DC12V
2. Rated Current	1480mA
3. Release Time	It takes less than 4.0 seconds to exhaust pressure from 450mmHg to 20 mm Hg with 1500CC volume.
4. Resistance	65Ω±10%
5. Leakage	When the interhal pressure with 1500CC volume is 450mm Hg without connecting with voltage ,the dropped pressure in nozzle A shall be lower than 15 mmHg/min.
6. Insulation Level	E
7. Applied Fluid	Air
